This team should be as temporary as possible; most of the job is to work oneself out of the job by handing it over to capable Precinct Leads. We need to get a precinct leadership structure set up which eventually could and should be handled by the county working with political parties. But right now we need to work **around** the county and the major-party leadership, to replace many of them with people who were NOT closely involved with fraud. In order to get this precinct leadership structure set up we need people fulfilling the following functions until the functions can be taken over by the precinct leadership structure or county officials.

Position	Skills/Info Needed	Responsibilities	Notes
Leader	People management	- Act as County Lead. - Track progress of recruiting and training. - Help derailed efforts get back on track.	
Mapper	Precinct map, 2022 list of ballots/precinct, detailed thinker good with Excel or equivalent.	- Group precincts into areas. - Assign each area to an Area Lead and VSPC. - Create and keep spreadsheet of precincts, expected # of ballots, # of people needed, and names of people available for that precinct. - Keep backup of Listkeeper information. - Report progress weekly to Leader.	Eventually the Area/Precinct Leads should keep this information for their own people.
Listkeeper	Detailed thinker good with Excel or equivalent.	- Keep list of name, precinct, contact information, and training status for anyone who joins the effort. - Keep backup of Trainer records. - Hand over volunteer information to Precinct Leads who are ready to keep and use it. - Report progress weekly to Leader.	Eventually the Area/Precinct Leads should keep this information for their own people.
Trainer (+ team to help)	Experience teaching or training and creating training materials	- Create all training materials needed for Precinct Leads: - detailed training on method - how to find hand count team - how to train hand count team - how to manage people problems on hand count team - how to account for ballots at beginning and end of counting - chain of custody procedures - how to handle overvotes, undervotes, spoiled ballots, and other complexities - schedule/plan for Election Night - any other relevant election judge training - Train Area Leads in hand counting and how to train Precinct Leads - Help Area Leads by holding training for Precinct Leads whenever possible. - Keep list of training status of Area Leads, Precinct Leads, and unassigned volunteers (Precinct Leads track their own teams.) - Send training status information to Listkeeper. - Report progress weekly to Leader.	Robin? (train, lead training team) Karen? (write training materials) Eventually the Precinct Leads should train their own teams.
Recruiter (+ everyone is the team to help!)	CE-068 list of in-person voters sorted by precinct	- Lead the effort to find and recruit 30+ Area Leads, 818 Precinct Leads, and at least 4000 hand counters. - Give Area Leads information for them to pass on to Precinct Leads on potential volunteers in their areas or precincts - Give everyone ideas for how to find people to recruit and what to say. - Give contact information of volunteers to Listkeeper and Mapper	Eventually the Precinct Leads should recruit their own volunteers, though this is probably the most intimidating thing and they will need a lot of help this year.

		• Report progress weekly to Leader.	
Promoter (+ team to help)	Writing, graphic design, video, and social media skills	• Create whatever works of: handouts, postcards, flyers, videos, websites, social media posts, etc. to educate volunteers, potential volunteers, and the general public about what we are doing and why	Do not advertise outside the group until Area Lead and most Precinct Lead positions are filled, so the opposition won't have as long to get talking points out against us. Karen? AnneMarie?
Researcher	Knowledge of where to find Colorado and federal laws	• Figure out which laws we are going to need to make sure we are following and which "laws" violate higher laws and thus should not be complied with	No doubt the county will helpfully point out every law they think they can get us with...
Voter Registration Researcher	Knowledge of voter registration system	• Figure out how Precinct Leads should clean voter lists. • Get Precinct Leads and polling station workers trained on voter lists	Recruit from United Sovereign Americans volunteers?
